If Mother Would Listen.

If mother would listen to me, dears,
She would freshen that faded gown;
She would sometimes take an hour's rest,
And sometimes a trip to town.
And it shouldn't be all for the children,
The fun, and the cheer, and the play;
With the patient droop on the tired mouth
And the "Mother has had her day!"

True, mother has had her day, dears,
When you were her babies three,
And she stepped about the farm and the house,
As busy as a bee.
When she rocked you all to sleep, dears,
And sent you all to school,
And were herself out and did without,
And lived by the Golden Rule.

And so your turn has come, dears,
Her hair is growing white,
And her eyes are gaining the far-away look
That peers beyond the night.
One of these days in the morning,
Mother will not be here,
She will fade away into silence—
The mother so true and dear.

Then, what will you do in the daylight,
And what in the gloaming dim?
And father, tired and lonesome then,
Pray, what will you do for him?
If you want to keep your mother,
You must make her rest to-day,
Must give her a share in the frolic,
And draw her into the play.

And, if mother would listen to me, dears,
She'd buy her a gown of silk,
With buttons of royal velvet,
And ruffles as white as milk,
And she'd let you do the trotting,
While she sat still in her chair,
That mother should have it hard a through
It strikes me isn't it?

CONSUMPTION CURED.

An old physician retired from practice, having had placed in his hands by a East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure of Consumption, Bronchitis, Catarrh, Asthma and all throat and Lung Affections, also a positive and radical cure for Nervous Debility and all Nervous Complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellow men. Actuated by this motive and a desire to relieve human suffering, I will send free of charge, to all who desire it, the recipe in German, French or English, with full directions for preparing and using. Sent by mail by addressing with stamp, naming this paper, W. A. NOYES, 820 Power's Block, Rochester, N. Y.—33-52t

Many Ladies

have written that Clark's Catarrh Cure has relieved them, restoring perfectly in every sense. Through gratitude they have consented that their names be published. Yet the Clark Chemical Company will not use this means to advertise their remedy. They will not parade the sufferings of any one, or invade the sacred privacy of any home. Any sufferer from catarrh will recommend Clark's Catarrh Cure, and that good word is worth more than the published certificate. Clark Chemical Company, Toronto, New York.

A Truthful Minister.

A young minister, in the course of an eloquent sermon on the pomps and vanities of the world, staggered his congregation by exclaiming:

"Here am I standing here preaching to you with only half a shirt on my back while you sit there covered with gewgaws and baubles."

"The next day a parcel, containing several brand new shirts, was left at his house by one of his hearers, a kind hearted old lady. Meeting the donor a few days afterwards, he thanked her exceedingly, but expressed much surprise at receiving such an unexpected gift."

"Oh," said the lady, "you mentioned in your sermon on Sunday that you only had half a shirt on your back."

"Quite true," added his reverence, "but you seem to forget the other half was in front."

Alexander Sproat, a lad from Milton, attending the Upper Canada College, received a wound in the throat while fencing on Saturday and died last Monday from the effects of it.

FREE CRAYON PORTRAITS & FRAMES

To all our Subscribers for 1892.

We, the publishers of "North American Homes," in order to increase the circulation of our journal throughout the United States and Canada, will spend this year over one hundred thousand dollars among our new subscribers in the form of an artistic Crayon Portrait and a handsome frame (as per cut below), to be made free of charge for every new subscriber to "North American Homes." Our family journal is a monthly publication consisting of 16 pages, filled with the best literature of the day, by some of the best authors, and is worthy of the great expense we are doing for it. The money we are spending now among our subscribers will soon come back to us in increased circulation and advertisements. The Crayon Portrait we will have made for you will be executed by the largest association of artists in this city. Their work is among the finest made, and we guarantee you an artistic Portrait and a perfect likeness to the original. sented his report on the schools of the County.

Mr. Warden and Gentlemen :-

In submitting my report on the state of the Public Schools of the County
for the year 1891, I am pleased to be able to call your attention to an increase
in the number of pupils enrolled, an increased average attendance and a diminu-
tion in expenditure, such a showing although the differences are small, is in
the present unsettled state of the country very gratifying.

Turning first to the cost of the Schools, we find a total expenditure in 1891
of \$11,303.46, as against \$12,544.64 in 1890, being a decrease of \$1241 of the
total amount, there were expended in

Teachers Salaries	\$8991 09
Building and Repairs	894 74
School Furniture	42 28
General Expenses	1875 35

\$11,303 46

This amount was funded as follows :

Government Grants	\$3302 05
Local Taxation	8001 41

Or in the proportion of 70 per cent. Local Taxation and 30 per cent. Gov-
ernment Aid.

The Government grants exceed those of 1890 by \$105, while the amount
raised by taxation is \$1346 less than that raised in the previous year. The
average cost per pupil was \$6.59 as against \$7.81 in 1890 (decrease \$1.22.) The
average cost per pupil over the whole Province was in 1890 \$8.57, in Victoria
\$7.16, in Peterborough \$6.75, and in the districts \$7.41, or in Haliburton the aver-
age cost per pupil is less than in any of the Counties quoted, and \$2 08 less
than that of the whole province.

An examination of Table II., which deals with the attendance, will show
equally satisfactory results. We find that the number of pupils enrolled is 1681,
increase over 1890 of 68, while the average attendance was 555 an increase of
61. The schools are open an average of 165 days (increase of 10 days) while
the number of pupils attending less than 100 days in the year is 69 less than in
1890, and the number reported as not attending any school is 37 as against 49
in the previous year. These figures show an all round gain, which as I said
before is very satisfactory.

Pupils were classified as follows.

First Class	800
Second Class	335
Third Class	814
Fourth Class	232
Total	1681

Of the teachers three hold Second Class Provincial Certificates, 51 Third
Class (including district) certificates, one Temporary Certificate or "permit"
was issued.

Twenty-three candidates wrote at the July examinations of whom, however,
seven only succeeded in obtaining the requisite number of marks to pass. A
class of 12 attended the Model School, all of whom obtained certificates and are
now teaching in the County. I have endeavored to place some of the graduates
of the school in each Township in the County, so that the benefits of the school
may be distributed as equally as possible. The work done at the school con-
tinues to be satisfactory and it is making its impress upon the schools of the
County.

The usual meeting of the Teachers' Association was held at Minden, and
was successful both in point of attendance and interest of proceedings.

In conclusion I am pleased to state that the year has been marked by har-
monious work on the part of both Trustees and Teachers, that real progress has
been made in the schools and that I believe that this county can point with
just pride to the efficiency of her educational institutions.

I am Gentlemen,

Your obedient servant,

CHAS. D. CURRY, P.S.I.

The Warden & Council,
Prov'l Co. of Haliburton.

Moved by Mr. Hartle, seconded by Mr. Sedgewick, that the report of the
Public School Inspector, be received and adopted and that it be printed with
the minutes of the proceedings of this Council. Carried.

The Clerk then presented and read the report of the County Auditors.

Moved by Mr. Gainer, seconded by Mr. Hewitt, that the Auditor's Report
now read be received and adopted, and that 200 copies of the same be printed,
and a dozen copies sent by the County Clerk to the Clerk of each Municipality
in the County, for distribution.—Carried.

Moved by Mr. Moon, seconded by Mr. Hartle, that Messrs. Gainer, Hartle
Sedgewick, Graham and the mover be a committee on the equalization of the
County Assessment for the year 1892, and bring in a report to the Council.—
Carried.

A deputation, consisting of Messrs. C. D. Curry, E. Noice, E. C. Young
and J. H. Delamere, then waited on the County Council showing the inade-
quate provision at present existing for the protection from fire of the County
Buildings and showing that owing to the absence of fire extinguishing appli-
ances the Court House only a short time since had a narrow escape from des-
truction by the roof getting on fire from a spark and a hole had to be cut
through the roof from the inside to reach the fire, they asked a grant of fifty
dollars towards the purchase of suitable hose to make the fire engine now owned
in Minden Village available for protection.

Moved by Mr. McColl, seconded by Mr. Hartle, that after hearing the ex-
planation of the Delegates now before this Council on the subject of fire protec-
tion, this Council grant the sum of fifty dollars towards the purchase of fire
hose.

The yeas and nays having been called for the resolution was carried on the
following vote.

Yeas, Messrs. Hartle, McInroy, Graham, McColl, Gainer and the Warden.
Nays, Messrs. Moon, Sedgewick and Hewitt.

Moved by Mr. Moon, seconded by Mr. Hartle, that the Clerk be instruct-
ed to get a patent Iron Ladder from Lindsay, to reach to the top of County
Buildings.—Carried.

Moved by Mr. Hartle, seconded by Mr. Moon, that this Council do now
adjourn to meet at nine o'clock to-morrow morning.—Carried.

The Council then adjourned.

Continued Next Week.

All About Shorthand.

This is the title of a 32 page pamphlet of
information, containing answers to all the
questions an inquirer would be likely to ask
about books, instruction, salaries of steno-
graphers, how to secure positions, etc., etc.
It will show what young men have done at
home on farms and in workshops; how from
the humblest beginnings the highest success
has been reached by learning this art at
piece-meal study, and while pursuing other
occupations. The success of stenographers
as compared with the success of young men
in any other vocation in life, will be seen to
be marvelous and encouraging. The author
of this system was himself a farmer's boy
and learned the art while following the plow.
The information he gives in this pamphlet
will be of interest and value to every young
man (or young woman either) who must
earn their own living. The pamphlet is
mailed for 5 one cent postage stamps to any-
one writing for it and mentioning the paper
in which this article appears.

MINDEN, FRIDAY, JULY 1, 1892

Railway Matters.

It will no doubt interest a very large number of the readers of the Echo to learn that a surveying party is now at work looking out a line for the construction of a railway from Peterboro to Kinmount, which is to form part of the Peterboro and Sault St. Marie Railway, and that the prospects of this road being built at an early date is good, we expect to have more information on this important subject ere long to lay before our readers.

A Good Move.

THE new railway bridge at Fenelon Falls, that has been talked of for years would now seem to be an assured fact as a liberal grant has been made for the purpose of its erection. The present bridge is a serious obstruction to navigation, and neutralizes most effectively the advantages Fenelon Falls would derive from the construction of the Trent Valley Canal; we are therefore glad to be able to report the grant as a fact and the prospect of the much needed bridge being built in the near future.

First-Class Crayon Portraits

ANY of our readers desiring first-class crayon portraits made from photographs of members of their family should secure prices from the Anglo-American Art Association, No. 9 Ground Floor, Canada Life Building, Toronto, Ont., who have the largest staff of experienced artists in this line on this continent. Agents can make money securing orders for crayon portraits. Send for full particulars by mail or call on them. Work is unequalled and prices lower than the lowest. A sample portrait from this Company will be on exhibition at the office of the Echo.

The Growing Age.

THE brain of a child is proportionately much larger than an adult's, but of much softer consistency, and its convolutions are not complete until the seventh year. This is one of the reasons why early study is dangerous.

The child's heart beats much more rapidly than that of an adult, and the growth of the heart, instead of being regular, like the growth of the body as a whole, is accomplished by fits and starts. The more rapid action of the heart renders the child peculiarly liable to fever, and the liability is further increased by his weaker vital resistance. Hence childhood is the special season for scarlet fever, measles, whooping cough, and other similar complaints.

The irregularity of the heart's growth may give rise to disturbances of the organ of a seemingly dangerous character, but with proper care they will pass away as the heart attains its full development. Such proper care includes ample nourishment, sufficient sleep, and the avoidance of special strain.

The season of rapid growth and development, say between the ages of ten and twenty, needs particular attention. Nature is then at work, as it never will be again, is building up the tissues and developing the nervous sensibilities. This is the period which makes the largest demands for an outdoor life, for pure air, sunlight, active exercise, abundance of nutritious food, a vigorous digestive tract, a ready assimilation, and an active elimination of waste.

It is the period of study and ambition, as well as of a wisdom that thinks itself wiser than it is. The increasing mental activity needs to be regulated by experienced teachers and considerate mothers, lest the brain be worked at the expense of other organs and tissues.

Duller minds should not be forced to keep step with those which are naturally more active, and the influences of the home and the school-room should be tranquilizing and adapted to evoke the kindlier feelings. Fretful parents and scolding teachers may do a life long injury during this susceptible period.

It is a period when neither study nor night excitements should interfere with sleep; when dime novels do their worst work; when mothers need to know what their children read, and to be their confidential counselor in all delicate matters; when the use of tobacco is especially perilous, almost surely giving rise to affections of the heart, and when spirituous liquors and all opiates are peculiarly pernicious.

Sir John Thompson expects prorogation of the House of Commons will take place at the end of next week.

A BRIGHT PAPER.—A sign of the times is the increasing vigor and aggressiveness of the Prohibition press. THE SON OF TEMPERANCE, started in January, 1892, and has been enlarged with the June number. It is a bright and clean sheet, uncompromising in its Prohibition politics, a hard-hitter, and will probably be popular as an Abstinence and Prohibition educator. A cartoon by Bengough is promised for the July issue. A column is devoted to Dumb Animals. Issued monthly; 25c. a year. W. E. Smallfield, Publisher, Renfrew, Ont.

Guidance to Subscribers

AGAIN it is necessary for us to remind those who have not paid their subscriptions to the Echo, that we are in need of CASH, and call upon such to do so without further delay. It will benefit both yourselves as well as the Echo to a great extent. For the information of those who have wrong ideas of the law respecting newspapers, we publish again a few clauses of the same.

1.—Any person who takes a paper regularly from the post office, whether directed in his name or another's, or whether he has subscribed or not, is responsible for payment.

2.—If a person orders his paper discontinued, he must pay all arrears, or the publisher may continue to send it until payment is made, and then collect the whole amount, whether the paper is taken from the office or not.

3.—The courts have decided that refusing to take newspapers or periodicals from the post office, or removing and leaving them uncalled for, while unpaid, is "prima facie" evidence of intentional fraud.
